

Eutelsat statement on operations at 28.5° East

Paris, 16 October 2012 - Eutelsat Communications (Euronext Paris: ETL) today filed a request for arbitration against SES with the International Chamber of Commerce in Paris. This request is grounded on a breach by SES of the Intersystem Coordination Agreement signed with Eutelsat in 1999, whose object is to coordinate Eutelsat's and SES's respective operations at several orbital positions, including 28.2 degrees East and 28.5 degrees East.

The purpose of the Intersystem Coordination Agreement was notably to allow for clear broadcasting skies over Europe in the best interests of tens of millions of satellite homes.

Eutelsat's position is that the agreement between SES and Media Broadcast, signed seven years ago, and only disclosed by SES in its release of 1 October 2012, violates the terms agreed in the 1999 Intersystem Coordination Agreement, specifically SES's commitment to respect Eutelsat's operations at 28.5 degrees East.

About Eutelsat Communications

Eutelsat Communications (Euronext Paris: ETL, ISIN code: FR0010221234) is the holding company of Eutelsat S.A. With capacity commercialised on 29 satellites that provide coverage across Europe, as well as the Middle East, Africa and significant parts of Asia and the Americas, Eutelsat is one of the world's three leading satellite operators. As of 30 June 2012 Eutelsat's satellites were broadcasting more than 4,250 television channels to over 200 million cable and satellite homes in Europe, the Middle East and Africa. The Group's satellites also serve a wide range of fixed and mobile telecommunications services, TV contribution markets, corporate networks, and broadband markets for Internet Service Providers and for transport, maritime and in-flight markets. Eutelsat's broadband subsidiary, Skylogic, markets and operates high speed Internet services through teleports in France and Italy that serve consumers, enterprises, local communities, government agencies and aid organisations in Europe, Africa, Asia and the Americas. Headquartered in Paris, Eutelsat and its subsidiaries employ just over 750 commercial, technical and operational professionals. This culturally diverse staff comprises employees from 30 countries. www.eutelsat.com
